Konnect Fastening Systems® We've Got You Covered!

As an industry leader in construction & industrial fastening solutions, we pride ourselves on being technical experts in the fastening industry.

Our friendly and experienced team is always ready to help solve your toughest challenges, ensuring you have everything you need to complete your projects efficiently. With 40+ locations, we conveniently stock an extensive range of fasteners and related construction supplies, including power tools, safety equipment, adhesives, and more. Our trade accounts are valid across our entire national branch network, allowing us to assist with your future projects, no matter where they are. We proudly serve businesses of all sizes, from sole traders to interstate & multinational companies.

On-site Services

Our team can offer customised on-site containers, creating a stocked 'warehouse' at your location to prevent delays. A representative tracks usage and issues invoices at set intervals. Containers are equipped with lighting and shelving, and we can assist in selecting the right product mix for various industries. Flexible on-site staffing and warehouse solutions tailored to specific customer projects are also available upon request. We can also offer strategic consignment-supplied products which will allow you to better control, plan, and manage capital expenditures.

PunchOut E-Procurement System Available

PunchOut is a smart e-procurement solution that connects your purchasing system directly to our catalogue, allowing you to browse and order products seamlessly. It saves you time with a quick and efficient ordering process while providing real-time pricing and availability for informed decision-making. PunchOut simplifies ordering, reducing manual entry errors, and gives you enhanced control over budgeting and compliance, making it easy to track and report purchases.

Electronic Vendor Managed Inventory

Our exclusive K-FAST EVMI system streamlines inventory management, preventing stockouts and ensuring smooth transactions. Customers can control, review, and approve orders before processing, with a glove-friendly, non-touch interface for easy use. Fixed contract pricing adds simplicity, while the system enhances inventory control and overall efficiency. The K-FAST EVMI system adds value to your business by improving inventory operations and freeing up resources for other vital day-to-day business tasks.

WE PARTNER WITH THESE
INDUSTRY LEADING BRANDS

Quality Assurance

At Konnect, we are dedicated to delivering the highest quality products to our customers. We understand the importance of reliability and performance, which is why we carefully source our products from trusted and reputable suppliers, both locally and internationally. For critical components, we provide test certificates and independent verification test reports to ensure that they meet the rigorous standards our customers expect. Your satisfaction and confidence in our products is our top priority.

Project Specification & Procurement

The success of any major construction project depends on seamless collaboration between industry experts. At Konnect, we are proud to be a key partner, providing comprehensive sourcing, procurement, and logistical solutions for fasteners and essential construction products. With large stock quantities across our national branch network, we deliver agile solutions as a strategic advantage. Our specialists ensure high-quality materials are available when and where needed, minimizing downtime and maximizing efficiency. Built on value, expertise, reliability, and customer support, we also offer industry knowledge and technical advice to help clients overcome challenges and meet deadlines. When forward forecasting is required, we collaborate with international suppliers to provide tailored solutions, including custom product design and development. Our procurement team can also offer export services if your project is outside of Australia.

Large Scale Projects Examples

Our team has proudly worked on a wide variety of large-scale projects across Australia, in conjunction with various companies.
